March 16, 2020

Dear Parents and Guardians:

At this time we have two informational updates to share with you regarding student learning opportunities and our student meal service program.

Our teachers and other team members have been working hard to create and compile student learning opportunities for our extended closure due to the Coronavirus. Some teachers have prepared learning packets, while others have prepared learning opportunities electronically. **Learning opportunity packets will be delivered by our school buses on Wednesday, March 18th between 10:30 AM and 12:30 PM.**

All learning materials should be kept at home until the students are allowed to return to school. If your child attends a program outside of the school district or at BOCES, those teachers will be creating learning opportunities for your child. We are currently working on providing electronic devices for high school students that shared they are in need of one to successfully complete online learning opportunities.

If you have any questions regarding your child's learning opportunity packets or on-line learning, please email your child's teacher.

On Wednesday, March 18th, we will also begin our Student Meal Service program. Student meals will be available for pick up at the back door of our high school kitchen between 10:30 AM and 12:30 PM each week day. If you selected the delivery option, meals will be delivered directly to your home between the hours of 10:30 AM and 12:30 PM by our school bus drivers.

We will continue to provide you with important updates and information as needed. I encourage everyone to do their part to help slow the spread of the Coronavirus by being mindful of the preventive measures we all need to follow. The health care workforce, hospitals, and medical centers desperately need our help.

Sincerely,

Timothy Jenny
Superintendent
